

OSG and PPDG

- PPDG is *the* DOE Grid-project focused on HENP.
- PPDG will propose continued funding through June 2007.
- OSG will probably include almost all the US Grid fabric funded by DOE HEP and NP.
- The PPDG continuation *must* be tightly coupled to OSG.
 - New PPDG focus: a cross-experiment approach to exploitation of a common Grid infrastructure for production *and* analysis tasks
 - Real Grid Fabric, a new driver for a cross-experiment approach.
