Welcome

- You need large-scale, HTC-style computing — for your research, for research you support, for your students
- **Do not let computing block your research!**
 - Computing is cheap and plentiful
 - Push the limits of what you can do
 - If you run out of science, *transcend the boundaries of your science*
 - When computing becomes a barrier, push us to fix the problems
- Help & encourage others:
In your lab, in your department, in your field, friends, etc.

NSF Support

We thank NSF for supporting this event and *you!*
